3. **Business Development & Tourism**

Mon Oct 20, 2025

1. Growth Management & Affordability
2. Bicycle & Pedestrian Safety / Traffic & Parking
3. Planning for a Changing Climate

How is this plan different?

Traditional Comprehensive Plan

- Structured after Pennsylvania Municipalities Planning Code (PaMPC) requirements
- Not necessarily an embodiment of the issues that matter most to residents
- As a result, document is commonly underutilized

Implementable Comprehensive Plan

- Seeks to identify solutions to local and regional problems through a community-based planning process
- Structured after **key issues** identified during planning process that matter most to residents
- PaMPC requirements are backfilled

For Tonight...

Goal: For each topic, review and discuss collective goals and brainstorm and identify areas where there are opportunities to move toward those goals in actionable ways.

Where are we?

Where are we going?

How do we get there?

Activities:

- **Review, react, and respond** to the drafted material on the display boards:
 1. “What We Heard”
 2. Example Goals / Principles and Opportunities / Action Steps
- Engage with **subject matter experts** to help round out ideas
